

THE NEW

RAYMOND RECORDER

No. 24 Vol. 2 Thursday, September 13, 1951

THE RAYMOND LION

The 1951 Crusade for Freedom opened on September 3 when an estimated 25,000,000 Americans boldly reaffirmed their faith in freedom for all men. In joining the Crusade, Americans contributed to the support of Radio Free Europe, an independent network conducting psychological warfare against Soviet Russia.

RFE began broadcasting on July 4 1950 with a single, short-wave station in Western Germany. It broadcasts to Poland, Hungary, Rumania, Bulgaria and Albania. Its objectives are to (1) fight the big lie of communism with the truth, (2) undermine communist influence in satellite countries, (3) foster the desire for freedom among these prisoner peoples and (4) tell them of America's earnest desire for their liberation and establishment of free governments of their own choice.

Results Came Fast

RFE 'correspondents' located in almost every European country, reported that satellite peoples were listening to RFE programs and are advertising them by word-of-mouth. Escapes through the Iron curtain reported that the programs were developing resistance to communist overlords. Communist radio in East Germany, Moscow and its 'stooge' stations in captive countries issued shrill rebuttals to facts broadcast by RFE and threatened RFE personnel with execution when Western Germany was 'liberated.'

At this same time, the 1950 Crusade for freedom was in the making—a crusade that was to enlist millions of Americans as a living force in support of RFE. Under the sponsorship of Gen. Lucius D. Clay, a seven-week campaign was launched on September 4th, 1950. During this same month, Edgar M. Elbert, now first vice-president of Lions International, attended a Crusade meeting for national representatives of men's service organizations. He was highly impressed with the movement and promised support of the Lions International office in circulating Crusade material to district governors. A number of Lions clubs subsequently sponsored Crusade activities in their communities. Past Int. President Fred W. Smith was very active in the California campaign.

The World Freedom Bell, designed by Walter Dorwin Teague, was adopted as a symbol of the Crusade. It stands eight feet high and is wrought in bronze. During the seven weeks of the campaign, the bell visited many U. S. cities. By the time it sailed for Europe, it had become a gallant symbol of freedom.

During the campaign, 16,000,000 Americans joined the Crusade by signing Freedom Scrolls.

October 24th was the climax of the Crusade. On that day the Freedom Bell was installed in City Hall Tower of West Berlin with dedication ceremonies attended by hundreds of thousands of people from both east and west zones of Berlin. As part of the ceremonies, the Freedom Scrolls were enshrined in the base of the bell. Then the bell pealed—the high moment of the ceremony! Every day since it has rung out over the air of Berlin. Its ringing peal is the signature for all Radio Free Europe programs, thus representing the living voice of freedom to those behind the Iron curtain.

With the money contributed during the 1950 Crusade, a new station was erected in Munich.

This is the most powerful medium-wave station in the world. It is beamed directly at Czechoslovakia, a particularly vulnerable spot in the Soviet sphere. Its first program was broadcast May 1st, 1951, and it now

(continued on page three)

Local Man Discovers Gold

Owen Larsen, who is receiving treatment at Dr. Hunt's Clinic in Sheriden, Montana, was very fortunate the other day when he picked up a pure gold nugget. The Clinic is located on the site of an old gold mine and the nugget Owen found was of refined gold. It was about the size of a large pea and was valued at about twenty dollars.

The first load of spring wheat to be delivered in this area came from the farm of Alma Sommerfeldt and was delivered to Ellison's Elevator here on Monday. The crop was combined and yielded approximately 35 bushels per acre.

Law Cannot Be Altered

In an effort to make it easier for motorists to make a turn on our main street the Town Secretary, Warren Jones, wrote to the Department of Municipal Affairs and we print below both his letter and the reply.

Dept. of Municipal Affairs,
Government Buildings,
Edmonton, Alberta.

Dear Sir:

Re: Sec. 54 V. H. T. Act
The Town of Raymond blocks are 660 feet and the streets are 100 feet with the main street 132 feet wide. The Council considers these blocks too long to require turning at the street intersections only. Could the Council designate the center of the street at the alley crossing an intersection at which motorists could turn and not violate Sec. 54 of the Vehicle and Highway Traffic Act. Your early reply would be appreciated.

Yours truly
W. L. Jones,
Secretary-Treasurer.

Mr. W. L. Jones
Secretary-Treasurer,
Raymond, Alberta.

Dear Sir:

Re: Section 54 V. H. T. Act
In reply to your letter dated August 13th I am sorry to inform you here is no way that the council can overcome or vary Section 54 of the above Act.

Yours very truly
"T. A. Potts"
Chief Municipal Inspector

Mrs. William Jensen is presently in Calgary visiting her son-in-law and daughter, Dr. and Mrs. Doug Allen.

Miss Norma Dahl returned last week-end from Boise, Idaho, where she visited for a month with her sister and brother-in-law, Mr. and Mrs. E. E. Zobrist.

Kim Bullock Sustains Painful Injury

Just after dinner today Kim Bullock had the misfortune of suffering a severely gashed right knee. He was holding the gasoline tank he had just removed a combine, between his knees while Jim Hervey prepared to repair a small hole in it. All the gas fumes had not been steamed out of the tank and shortly after the torch was touched to it the tank exploded. Both ends were blown out and the sharp edge of one cut Kim's knee quite seriously. He was knocked unconscious by the blast which removed him several feet from his original position.

A large black and blue spot, a damaged little finger and a ripped pair of pants were effects also caused by the explosion.

The wound was treated by Dr. Walker and required several stitches to close.

Kim is bowing low to Dame Fortune for protecting him from a much more serious injury.

Mr. and Mrs. Shirley King and daughter Barbara, and Mrs. Arledge Hill were visitors in Calgary over the week-end.

I REMEMBER

Elma H. Romeril

I came to Canada from Utah with Father and Mother early in the spring of 1900. We came from Great Falls on the AR & I Railway — It was a narrow gauge then. There was a big snow storm raging and when the horses and cattle were unloaded they had to be herded all night to keep them from drifting.

All the land from Stirling to Lethbridge to Magrath was Government surveyed that summer.

Cattle from all the country north grazed over the prairie with no fence to stop them. We children used to see how many different brands we could see on a herd of cattle.

When Brother Jesse Knight was considering buying the land he stopped for dinner one day at Father's ranch and told Father what he was doing.

I remember the Dedication of the Sugar Factory site and also the Town of Raymond. It was a very warm Sunday and there was no shade but such a lot of grass, the meeting held at that time has lost none of its sacredness. Apostle Taylor was there and was one of the speakers.

Soon the buildings began to show up. The Raymond Mercantile, which was both store and Post Office for a while.

I also witnessed the burning of the store.

I started school when it opened with Miss Middlemiss as teacher. I finished grade school under B. F. Kellar.

Since then Raymond has made a steady growth which I have enjoyed watching. Many of our children and grandchildren were born and educated here, may they send their roots down and make improvements as their parents and grandparents have done.

Mr. and Mrs. Maurice Cooper have received word that their daughter Jean, whose former headquarters in the mission field was in Cambridge Mass., has been transferred to St. Johns, New Brunswick.

Acknowledged With Thanks

The local T. B. Association wishes to express its sincere appreciation to all those who assisted in making the recent T. B. Survey possible. To the leaders in the various phases of the work go a special thanks for a job well done. The following is what is hoped to be a complete list of the workers and if any names have been omitted their forgiveness is asked.

C. R. Wing and Dick Kinsey were co-chairman for the drive and Leon Harker was director of publicity. Mrs. Ruby Holland was in charge of compiling the list of names by canvassing the town and district. Assisting her in this work were Mr. Nelson of Welling, Mrs. R. Pack, Mrs. J. Thompson, Mrs. L. Winters, Mrs. P. Kirkham, Dick Kinsey, Mary Court, Mrs. A. Adams, Mrs. A. Phillips, Mrs. H. Houghton and Elden Brown.

Mrs. I. Kitchen did a fine job of sending out the cards.

Mrs. Flo McKean was in charge of the office staff at the Clinic and was assisted Mr. Mrs. W. McKean, Mrs. R. Holland, Mrs. Minion, Mrs. Pack, Mrs. M. Meldrum, Faye Attwood and Mrs. M. Attwood.

T. B. is being put slowly, but surely to death and each of the above mentioned people (and any that may have been missed) and each person attending the clinic can feel that they, personally, have done a bit toward bringing an end to the white plague.

Mr. and Mrs. Willard Heninger of Warner, Alberta are the proud parents of a baby boy born last week.

Engagement Announced

Mr. and Mrs. C. L. Lutz announce the engagement of their daughter Doris Marion to Leading Seaman Stephen Alexander Nemeth, son of Mr. and Mrs. Alex Nemeth. The wedding will take place on September 17.

Dr. and Mrs. Harlan Taylor spent a few days down across the line vacationing this week.

Three great big "Hurrahs!" for the Town of Raymond Public Works Department. The problem of crossing the road between King Motors and the Broadway store has been solved. The PWD laid a new sidewalk of planks across the road so that it is no longer necessary to wear waders to get across. Many other crossings and approaches to crossings have been repaired this summer.

The management and staff are to be heartily congratulated.

Scouts Are Fine People

The free world loves the Boy Scouts. Mother loves them. Father loves them, maybe sister loves them and for sure brother thinks the young fellow with the staff, the short pants and the shining eyes is at least a "tolerable" fellow.

The Boy Scouts are nice fellows and their leaders are nice fellows and the organization they belong to is a nice organization. The only thing that is not so nice about the organization is that it needs money to carry on its good work.

The Provincial Headquarters of the Boy Scouts now has four full-time Field Commissioners as well as a full time Secretary who are working diligently to further their good work. These people are preparing the youth of today to be the leaders of tomorrow by giving special courses and helping the Scouts in all phases of their work. These people have to be paid for their work and that is where the money comes in—or should we say that there is where part of the money goes out.

At the present time the Provincial Headquarters are planning a campaign to raise funds to keep Scouting moving forward and the local Scout Committee held a meeting on Wednesday to organize such a campaign for Raymond and District. At this meeting the bankers were elected to fill the offices of Chairman and Treasurer — Mr. Grant will be Chairman and Mr. Magee will be collector of the green. It was decided at this meeting to contact the Service Clubs to see if they are interested in assisting in this campaign.

A house-to-house canvass will be made of the Town between the fifteenth of September and the fifteenth of October but the committee will be happy to receive any contribution before that time. The local objective is only one dollar per house hold—surely a small investment to make in a boy whether he be yours or someone else's.

In connection with the campaign to raise funds, Headquarters are trying to increase the membership in Alberta from the present 9,000 to 25,000. Len Ankers of Lethbridge is the Field Commissioner for this area and is working constantly to improve scouting here.

Mrs. Bill Attwood was hostess at a birthday party honoring her daughter, Faye, on Sunday, September 12. Games and a delicious lunch were enjoyed.

United Church Notes

Sunday School — 11 a.m.
Church Service — 2 p.m.
Every Sunday — Everyone Welcome

Baptismal and Communion Services will be conducted by Rev. B. Johnson B. A. of Cardston in the Raymond United Church at two o'clock in the afternoon.

What Happened At The Council Meeting

Regular meeting of the Council was held at the Town Hall at 8 p.m. Those present were Mayor Jensen and Councillors Pack, Wilde, Jacobs, Ralph, Melchin and Galbraith.

The Minutes of the previous meeting were read and adopted on the motion of Councillor Wilde.

The Cash Statement was read and accepted on motion of Councillor Ralph.

George Haugen met the Council requesting that a cost of living bonus be instituted. Moved by Councillor Pack that effective September First 1951 a cost of living bonus be allowed all Town employees of 25¢ per week for each full point increase in the cost of living index starting from the official index at the first of September. Carried.

A copy of Frank Taylor's letter to M. D. Sugar City regarding Wilson road was read. Moved by Councillor Melchin that the Secretary write Mr. Taylor expressing the Council's appreciation of his efforts regarding this and other roads. Carried.

The Secretary was given permission to have the correspondence regarding Sec. 54 of the V. H. T. Act published in the local paper.

Moved by Councillor Ralph that the Town send some representatives to the Convention at Calgary on October 12th and 13th. Carried.

October 8th being a holiday the next regular Council Meeting was set for October 15th at 8:15 p.m.

(continued on page two)

With Maxine Dahl and a few friends supplying the chicken etc. and Mrs. Emma Dahl doing the cooking, a very delicious dinner was served to sixteen guests Saturday evening at their home. After the last crumb was cleared away they made their way over to the Opera House for the dance.

Local Athletes Win Honors

Doran Flexhaug and Allan Tollerup represented Raymond at the Provincial Track Meet held recently in Athabasca. Doran brought glory to himself and the town by winning the high aggregate for his class with five firsts and three seconds in the eighteen and nineteen year class. He won the Pole Vault, High Jump, 120 Yard Hurdles, 12 lb. shot put, discus throw, and came second in the 100 yard dash, Broad jump, Hop-step-and jump.

Allan Tollerup, in the sixteen and seventeen year class, made a clean sweep of the four events he entered by winning them all—the 440 yard, 880 yard, high jump and the hurdles. These young men, and Ben Brooks of Cardston were the only athletes from South of Okotoks to participate in the Meet.

J. S. Hopkins of Lacombe has been awarded the contract for the gravelling of the highway from Welling to Craddock.

Mr. and Mrs. Peter Wansgard, Miss Vivian Peterson and Mr. and Mrs. Bert Ried from Ogden, Utah, and Mr. and Mrs. Lewis Wansgard of Huntsville, Utah, were recent guests at the C. D. Peterson home. Mr. Peter Wansgard and Vivian are Mr. Peterson's cousins.

While here they motored to Calgary, Banff and Lake Louise; a trip that greatly impressed the Americans and was also very enjoyable for the Canadians. A visit to the McIntyre Ranch proved very interesting to the visitors who are closely associated with the ranching industry in Utah. The poor road signs and the inconsiderate driving of Canadians were the only things to mar an otherwise wonderful holiday for the visitors.

Mr. and Mrs. Gerald Watson were visitors in Edmonton last week where they attended the Alberta Public Health Convention. While Gerald was attending meetings and such, Mary, along with the other wives, was taken on a tour of the city including the new university hospital, and the surrounding oil fields.

Facts Are Needed

This is an appeal.

It is an appeal to the people who have relatives laid away in Temple Hill Cemetery.

It is an appeal to those people who have the records of their death completed at the Town Hall.

Several times in the recent past men who have been digging "new" graves at the Cemetery have opened "old" ones. This is a sad and sorry state of affairs that could be overcome if everyone who has a loved one buried in the Cemetery would make sure that the records contain that information. If the exact location is not known the fact that there is a grave on the plot should be made known. Those in charge of the digging of graves have the means of finding the grave if they know that there is one there. Graves that were dug in the old days and had no marker are now just level ground which accounts for the fact that twelve old graves have been re-opened so far.

The Cemetery Board is now having the ground planted to lawn which will make a bad situation worse unless people complete the burial records. It is not too much of a job and the few minutes it takes to do it will reap great reward.

Some time ago the Board sent out 350 letters asking that this work be done and to date they have received nine replies—a discouraging thing for the people who work without remuneration to keep the last resting place of the dear dead, a place of beauty. They are doing their job and all they ask is for you to do yours.

A brighter facet for Cemetery activities is the beautiful job the Marshall Milner family are doing about solving the problem of what to do about the care of the ground between 'capped' graves. They have known the way by planting pansies in this area—an idea many people should follow.

Young Van Sutherland of San Diego, California has returned home after being a guest at the home of Mr. and Mrs. L. L. Christensen the past two months.

You a Sharpshooter?

The Raymond Gun Club and started on its way in a field of glorious sport a year ago and it needs the sport of all the shooters and hunters of Raymond.

Anyone can become a member of this Club by paying five dollars for a Lifetime Membership.

It is a very educational sport for the young shooter, as well as the old, because it teaches him, or her, how to shoot and the dangers and safety of all firearms.

Come on down to the Fairgrounds on the nineteenth of this month, which is Wednesday afternoon, and watch this Club in operation. If it gets in your blood don't blame us, just grab a shotgun and come down and enjoy yourself — it will sharpen your eye for those big Mallards and Canada Goose.

This isn't a money-grabbing Club. Just a bunch of shooters trying to get along and see how many clay pigeons he, or she, can break with a set number of shells. It is a game of skill — not luck.

See you on Wednesday!

Just an added item of interest.

The Gun Club is sponsoring a quiz contest with the grand prize being a new Winchester Model 12 shotgun. Tickets are now on sale. Proceeds are for the purchase of an automatic trap.

Serving one of Canada's richest irrigated mixed farming districts.

On Sunday Mr. and Mrs. Mike Holland and Mr. and Mrs. Wayne Holland of Taber were visitors in Staveland at the home of Mr. and Mrs. Carlson.

The Neighborhood Club met Friday night at the home of Mrs. Wm. Jensen for their regular get-together. A very tasty lunch was served.

We offer our congratulations to James S. Anderson who reached the ripe old age of 83 years this week.

What Happened At The Council Meeting

(Continued from page one)

Councillor Wilde was instructed to check the cost of constructing a machine shed and find what materials were already on hand.

Moved by Councillor Melchin that a reserve bid of the full assessed value be set on all properties offered for sale at the tax sale October 29th 1951. Carried.

Moved by Councillor Wilde that the Town Employees arrange to take care of the janitor services for the winter months. Carried.

A letter of the Supt. of Buildings for the Dept. of Public Works was read offering \$3,000.00 towards the construction of a 4 inch water line and hydrant to be taken to the Mental Hospital. Moved by Councillor Pack that this matter be checked with the Deputy Minister as the size of the line was different than recommended by the Fire Commissioner and some of the details suggested by the Supt. of Buildings were not possible. Carried.

Moved by Councillor Pack that the Dept. of Civil Defence be informed that a candidate has not yet been obtained for Course No. 2 at Olds but that if a third course were offered during the winter a candidate could possibly be obtained. Carried.

Pay Roll was read and ordered paid on motion of Councillor Galbraith. Meeting adjourned on motion of Councillor Wilde.

More missionaries for the LDS Church have received their call. Douglas Litchfield will go to West Central States; Gerald Litchfield to Britain; Doran Flexhaug to Norway; John Holmes to Australia; Max Fairbanks to Tahiti; James Kabota to Japan; Jack Chipman, Welling, to the Central Atlantic Mission and Arvin Wilde and Mark Chipman, also of Welling, have not yet received their call. Three missionaries are also leaving from Stirling.

Little Terry Smith celebrated his fourth birthday last week with a birthday party. He and his friends enjoyed themselves greatly playing games, swinging on the swing, and eating jello and cake.

Mrs. Anne Larsen spent last weekend in Sheridan, Montana with her husband, Owen, who is taking treatment at Dr. Hunt's Clinic. With the coming of colder weather in the mountains, Owen and the rest of the patients at the Clinic will soon be moving to Mesa, Arizona. Mr. Larsen's health is seemingly on the mend and we join with the rest of the citizenry in wishing him best wishes for his recovery.

Dennis and Roy, the two sons of Mr. and Mrs. Dan Smith have returned from a trip to Windsor with their Dad.

The Second Ward Chapel is getting a new layer of shingles. Bob Salmon and his crew are busy laying the cedars and pounding the nails and will be doing so for the next ten days. The whole roof will be reshingled and that seems to us to be a lot of space to work on but Bob says that only he and five men are able to work at one time—others just keep sliding down. From the ground looking up to where the men were perched near the top of the building we are ready to believe him.

The luck of the Irish—or something—must be carried in Ronald Stevenson's vest pocket. Twice in one day last week, he turned a loaded truck over without sustaining any serious injury to himself and doing but little damage to the truck.

Mr. and Mrs. Mark Dahl and Dennis have returned to Edmonton after spending the summer months with their parents, helping on the farm.

The Friendship Club met at the home of Mrs. Carol Shaw last week. Visiting, sewing, and a lovely lunch were enjoyed.

The Honourable D. A. Ure announced recently that applications from young men in Alberta for the T. Eaton Agricultural Scholarship to be awarded this fall at the Royal Agricultural Winter Fair should be submitted to District Agriculturist by October 1st, 1951.

The scholarship which has been made available by the T. Eaton Co. will provide college fees, lodging and board for a four-year course commencing in 1952 at any Agricultural College in Canada selected by the winner.

The scholarship is available to young men in Canada who have not reached their 25th birthday by Oct. 20th, 1951. Selection of the successful candidate will be made at the Royal Agricultural Winter Fair this Fall. In making the selection academic standing, activity in agricultural organizations, evidence of good citizenship and potential as a leader in community work will be considered. The Minister stated that any young man in the Province of Alberta who wishes to apply for this scholarship should send his application at once, but not later than October 1st to the resident District Agriculturist.

COMBINE IN COMFORT AND SAVE MORE GRAIN...

MASSEY-HARRIS

Super 26 AND Super 27 COMBINES

are engineered to make harvesting easier and faster than ever... and to thresh and save every bushel you can grow

Features for Speed & Comfort

1. Multiple speed drive (24 speeds).
2. Better visibility.
3. Floating table with electric lift.
4. All controls within easy reach of hand or foot.
5. Extra large wheels.
6. Larger grain tank... quick unloading.
7. Spring seat, hinge mounted... room to stand up and stretch.

Features for cleaner combining

1. Feathering auger... gets the most out of tangled grain.
2. Wider range of cutting height... 1" to 32".
3. Greater cylinder capacity.
4. New cylinder-beater design.
5. Longer, wider straw walkers.
6. Two-directional air fan.
7. Balanced weight for field stability.

The Super 27, with 16 foot cut will harvest up to 70 acres a day. The Super 26 is equally efficient, but smaller... 12 foot cut. Come in and let us give you full particulars.

TB DEATHS DECLINE

Alberta's death rate for 1950 was 19.3 per 100,000 the lowest yet reported, it was revealed today by C. Robert Dickey, General Secretary of the Alberta Tuberculosis Association. Total number of deaths was 173.

Alberta has the third lowest death rate from TB in Canada, Ontario being lowest with a rate of 13 per 100,000 and Saskatchewan second lowest, with a rate of 18.5. Mr. Dickey pointed out that Alberta is rapidly overtaking Saskatchewan for second place. He said, "In 1941 Alberta's death rate was 40 per 100,000, which was 50 per cent higher. We think we have a good chance of having Canada's second lowest death rate within another year or two."

The tuberculosis control program in Alberta is second to none on the continent, according to Mr. Dickey, and is steadily improving, with expanding community surveys through the Christmas Seal mobile units, and extension in TB-screening of hospital admissions. The Alberta Department of Health and the Alberta Tuberculosis Associations work very closely together in all aspects of T. B. control, and results are obvious in the above statistics.

The Solway String Quartet heard on CBC (Sundays CBX 7:30 p.m.) is credited with popularizing chamber music in Ontario. The performers are Maurice Solway, Jack Groob, violins; Ivan Homanoff, viola; Marcus Adney, cello.

FOR PARENTS ONLY

By Nancy Cleaver

KOREAN ADVENTURE Part I

"Give us something we can use as a family activity with our school-age children," a reader suggested recently. "Why not work out a quiz on Korea which would give us information in concentrated form? Wide-awake boys and girls are certainly asking a lot of questions about this little peninsula which fathers and mothers can't answer!"

It was in reply to this request that the following quiz on Korea was written. If it seems rather difficult for some members of the family, choose two captains and divide into groups.

Perhaps you would like a week in which to "dig up" as many correct answers as possible with the help of the Public Library and other places. One of the most useful things which a parent can do is to encourage the search for knowledge by using available books and pamphlets.

The Koreans have a saying: "Don't draw a sword to kill a mosquito!" You may not know any other Korean proverbs but you should be able to answer a fair number of these questions.

QUIZ ON KOREA

1. Give another name for Korea and its meaning.
2. The Koreans are: (a) similar to the Chinese? (b) very like the Japanese? (c) a distinct race?
3. The area of the Korean peninsula is about...?
4. The approximate distance between Korea and Canada is?
5. The population of Korea is: (a) about the same as Canada? (b) almost twice as many? (c) nearly three times as great?
6. The climate is (a) tropical? (b) temperate?
7. Korean countryside is (a) quite flat? (b) rolling country? (c) mountainous?
8. Name three of the most popular foods in Korea and underline the one which is most used.
9. True or False? — Korean civilization is (a) older than China? (b) older than Japan? (c) older than Western civilization?
10. True or False? — Koreans revere the scholar and (a) the Korean system of writing is an ancient complex one, difficult to master or (b) a simple phonetic alphabet.
11. Korea's ethical system is built on (a) Buddhism? (b) Confucianism? (c) Shintoism?

12. Catholic and Protestant missionaries have worked in Korea in recent years and today Christians form less than (a) 5% (b) almost 10% (c) nearly 25% of the native population?

13. True or False? — The position of Korean women is more undesirable than women in the Far Eastern lands. Foot binding, similar to the old Chinese custom, has been widely practised in Korea.

14. Korea defended herself against Japan's first attempt to conquer her in the middle of the nineteenth century with (a) a cannon? (b) iron clad battleships? (c) flying bombs?

15. The Korean people are ingenious with a large number of clever mechanical devices to their credit. Mention two of their early inventions.

16. What Western power opened the doors of Korea, 'the Hermit Nation' by treaty late in the nineteenth century?

17. What effect had the Russo-Japanese war which ended in 1905 on Korea?

18. Was the Japanese occupation (a) liberal, in the best interests of the Koreans? (b) repressive, for the benefit of Japan?

19. Do you know of any incident in this century which would support the claim that Koreans are a freedom loving people?

20. The average South Korean man earns his living as (a) an industrial worker? (b) a farmer? (c) a fisherman? (d) a miner?

21. In recent years Korea has been an important source of which two of the following commodities (a) oil? (b) fish? (c) rice?

22. Describe one of the following: (a) The traditional Korean costume (b) The Korean national animal (c) The Korean flag.

23. Which is correct? (a) The 38th parallel is: (a) A natural geographical division whereby North and South are separated, (b) An artificial, temporary boundary arising out of World War II.

24. True or False? — The UN workers found that the language barrier and the cry "Let the Westerners get out of Korea" made the holding of elections in South Korea impossible.

25. True or False? — A beginning had been made in the unification of all Korea when North Korea launched its attack on June 24, 1950.

and the answers to the questions will be in next week's paper

The Psychology Club met last Wednesday evening at the home of Mrs. Virginia Rolfsen. Mrs. Ruth Gibb presented the lesson on the ten and eleven year olds after which the Hospital Mending was distributed. The Club executive are very pleased with the way the members are responding to this worthwhile project.

Special guests present were Mesdames Mirra Peterson, Marva Nalder, Mabel Pack, Idale Kenney, Julia Tolstrup, Dorothy Jones and Elaine Meeks.

As usual a delicious lunch was served.

Mr. and Mrs. Louis Brandley and Mr. and Mrs. T. Geo. Wood enjoyed last week-end in Waterton. This was a special occasion for Mr. and Mrs. Wood who were celebrating their wedding anniversary.

OUR TEACHERS MOULD OUR NATION'S FUTURE!

The responsibility of a teacher is more than teaching reading, writing and arithmetic—or geometry, algebra and history. Ethical standards, good citizenship, and adjustment to the world about us must also be taught.

Teachers are among the most important members of your community.

A Letter from the Legion

Editor,
Recorder,
Raymond, Alberta.

Dear Sir:

There are many ex-service as well as non ex-service people who are not familiar with the legislation affecting veterans passed at the last session of Parliament. Through your columns I plead your indulgence to make clear just what the Government passed and what it failed or refused to deal with.

It is true that the people of Canada have, up to the present, passed legislation in the interest of veterans second to none in the world but with changing times and circumstances laws must be changed too in order to keep abreast with the times.

The Canadian Legion with its thousands of branches and hundreds of thousands of members all culminating in the Dominion Executive Council of the Legion is the national organization completely familiar with the veterans' problems and the needs of their dependents. It would seem logical therefore, that the Government would first consult with the Officials of the Legion to get the benefit of Legion knowledge and experience before any bill affecting veterans were presented. This was not done. The result was that there has been dissatisfaction all round, and with reason.

The Legion asked the Government to form a special committee on veterans' affairs to consider all veterans' legislation. The Government agreed to authorize such a committee but limited the terms of reference so that the committee could only deal with the things the Government wished it to deal with. The Legion appealed to the Government requesting that the terms of reference be broadened. This was refused. Consequently many urgent needs of veterans, of dependents and of widows of deceased veterans could not be dealt with.

The Government in its wisdom (?) proposed an amendment to the pensions act which would grant \$20 per month to unemployable single pensioners whose pension is 35% or over, and \$40 per month to unemployable married pensioners whose pension is 45% or over. The Government estimated that this legislation would affect approximately 6,000 pensioners. This indeed will help those privileged few. But what about the 160,000 pensioners whose pensions are less than the 35% or 45%? Is there to be no consideration for them?

Let us be fair and reasonable. Surely a pensioner of 5% or 10% or 30% who is unemployable is just as much in need of augmented pensions as the 35% or 100% pensioner. The cost of living has gone so high that something must, surely, be done for all pensioners, not for only the fraction of whom are in the higher pension bracket.

The basis upon which disability pension was originally established was the wages of a manual laborer (the lowest scale upon which to base a pension). Nevertheless the laborer's wage has risen with the cost of living. But pensions, NO.

The Government at the last session of Parliament refused to consider increase in pensions, war veterans allowance, widows allowance and the plight of non pensioned widows.

I feel sure it is not the desire of the Canadian people to ignore or overlook the needs of those who defended our country nor the needs of the widows who gave their all. Perhaps, too, your local member of Parliament has not been adequately informed as to the need for revised veterans' legislation. May I say this, if in your opinion the requests of the Legion are just and reasonable, ask your member of Parliament to support the pleas of the Legion. If, on the other hand, you have contrary opinions I shall be glad if you will forward them to me personally.

Yours sincerely,
D. E. Fraser,
Prov. Exec. Secretary

Warfare On Rats

Rats (and mice) have been a continuing menace to food production and public health throughout human history. Every year, rats destroy or contaminate vast quantities of grain and grain products, milled feed and other foods. The rat, as a carrier of disease, has always been a threat to public health.

Serious Menace. A single rat can eat or spoil over 100 pounds of grain a year, besides becoming a parent or grand-parent to hundreds of other rats. Rat damage is always conspicuous whenever large quantities of grain have to be stored either on farms or elsewhere, for long periods in temporary storage. Under such conditions, effective rat control is doubly important and can only be achieved by following three fundamentals — sanitation, trapping, and poisoning.

Research Pays Off. "Bait shyness" has always been a problem in rat control. Fifteen years ago Scientists at the University of Wisconsin began to study "Sweet Clover Sickness" in cattle, where animals after eating spoiled sweet clover, died from internal bleeding. The chemical factor involved was isolated, named dicumarol and proved useful in Medicine as a blood anticoagulant. Further work led to the discovery of a very toxic related chemical which proved to be an effective rodent killer and was named Warfarin.

A New Control. Warfarin is a slow acting poison. It kills rats and mice in from 3 to 10 days by thinning the blood. For best results provide plenty of bait (using cereal grains) and renew the supply frequently. Since this poison has no objectionable odor or taste and since rats die without any violent reaction or pain—"bait shyness" is not a problem.

Warfarin has a low potential hazard to other animals. Birds, fowl and sheep are highly resistant, while horses and cattle are not usually harmed. Vitamin K, the blood clotting vitamin, is used as an antidote.

Unless we wage relentless warfare on rats covering farms, mills, elevators, food warehouses, stores and eating establishments; using an effective poison such as Warfarin, they will continue to be mankind's greatest enemy of the animal world.
